Software Engineer skilled in Java, React.js, Node.js, Express.js, MongoDB, and Firebase with experience in developing AI-powered and full-stack web applications.

EDUCATION

Pallavi Engineering College, Kuntloore - Hyderabad.

B.Tech – Computer Science Engineering | 2022–2026 | CGPA: 7.7

SKILLS

Languages: Java, JavaScript, Python

Frontend: HTML, CSS, React.js

Backend: Node.js, Express.js

Database: MongoDB, Firebase

Tools & Platforms: Git, GitHub, Vercel, Streamlit

INTERNSHIP EXPERIENCE

AI Resume Screening Intern (Virtual Internship) – Edunet Foundation | Feb 2025 – Mar 2025

- Worked on AI and NLP-based resume screening systems for resume parsing, keyword extraction, and candidate profiling.
- Implemented secure role-based dashboards for Admin, Faculty, Students, and Parents with attendance tracking, academic monitoring, fee management, notifications, and student record management.
- Built RESTful APIs, CRUD operations, responsive UI, and scalable database architecture for efficient data management and system performance.

AI & Machine Learning Intern (Virtual Internship) – Maincrafts Technologies

- Worked on machine learning projects using Python, Pandas, NumPy, and Scikit-learn for data processing, model training, and evaluation.
 - Built classification and regression models using supervised learning algorithms and tested model performance using accuracy, precision, recall, and F1-score.
-

PROJECTS

SMS-Neuro Campus | MERN Stack

- Developed SMS-Neuro Campus, an AI-powered smart campus platform using MongoDB, Express.js, React.js, and Node.js with AI-based student performance prediction and analytics using the Random Forest Algorithm.
- Developed resume ranking features to improve candidate shortlisting accuracy and recruitment efficiency.
- Worked with real-world datasets for data preprocessing, analysis, and automation of data-driven decision-making processes.

Romanshu E-Commerce Platform | MERN Stack

- Developed a full-stack e-commerce platform using MongoDB, Express.js, React.js, and Node.js with user authentication, product management, cart, and order management features.
 - Built responsive user interfaces, admin dashboard, product listing pages, and secure CRUD operations for efficient product and customer management.
 - Integrated Firebase for image storage and designed scalable RESTful APIs to improve performance and user experience.
-

ACHIEVEMENTS & LEADERSHIP

Top 20 National Rank – NEC 2025

- Led the team as Vice President and contributed to achieving a Top 20 national rank in the National Entrepreneurship Challenge (NEC) 2025.

Founding President – CSI PEC Student Branch

- Organized technical NirvanaX, SpecteraX, hackathons, and industry speaker sessions to promote student learning and technical engagement.
-
